

# it's time to rethink RECYCLING

1. RECYCLE ALL BOTTLES, CANS AND PAPER
2. KEEP ITEMS CLEAN AND DRY
3. NO PLASTIC BAGS

## ALWAYS RECYCLE

- o Plastic Bottles and Containers
- o Food and Beverage Cans
- o Paper
- o Flattened Cardboard and Paperboard
- o Food & Beverage

## DO NOT INCLUDE in your recycling cart

- o NO Food Waste
- o NO Foam Cups and Containers
- o NO Plastic Bags and Film
- o NO Needles

DID YOU KNOW recycling one aluminum saves enough energy to:

- o Run a TV for 2 hours?
- o Power a 14-watt CFL bulb for 20 hours?
- o Power a computer for 3 hours?

69% OF PLASTIC BOTTLES DON'T GET RECYCLED.

45% OF ALUMINUM CANS END UP IN THE GARBAGE.

That's why it's time to get back to the basics of good recycling.

When you think of the difference just one person could make, imagine the positive impact whole communities could have by recycling.
